

# The POWER of Quality

First-rate patient safety. Highly efficient pharmacy workflow. A true growth path for the future. The ultimate goals of automated dispensing technology.

Our PharmASSIST suite of automated dispensing solutions helps you achieve all of this and more because of our relentless focus on *Quality*.

Whether it's our unparalleled dispenser features, dynamic workflow software, powerful performance analysis, or top-notch professional services, everything we do revolves around quality. And we pass it all on to you.

Never underestimate the power of quality. It swings the balance of your operation from being simply conventional to becoming a leader of the pack.

*Now that's powerful.*

## Technology with Vision

Truly innovative. Feature rich. Quality laden. Award winning. PharmASSIST technology speaks for itself.

At the heart of our automated dispensing solutions is the PharmASSIST dispenser. With its ingenious design, built-in intelligence, and compact size, our dispenser outshines the field, delivering significant productivity and quality control advantages.

PharmASSIST cabinets house our dispensers and enable countless physical configurations to accommodate any pharmacy layout. And our end-to-end workflow and dispensing software is built with next generation development tools and databases, enabling seamless integration with any pharmacy management system.

## Results-Driven Solutions

Volumes continue to rise. Customers are demanding pharmaceutical care. New drugs continue to flood the market. And pharmacist roles have expanded while the workforce has shrunk. The industry needs solutions.

Our PharmASSIST suite addresses your many challenges head-on and delivers real results on all fronts. Whether it's our SmartCabinet, Enterprise System, Workflow Software, or Robotics

System, our highly scalable and configurable solutions enhance your Rx filling, organize your workflow, and free up your pharmacists for patient counseling.

We complement our products with a full realm of value-added services from initial project planning and system design to installation, training, and 24/7 support.

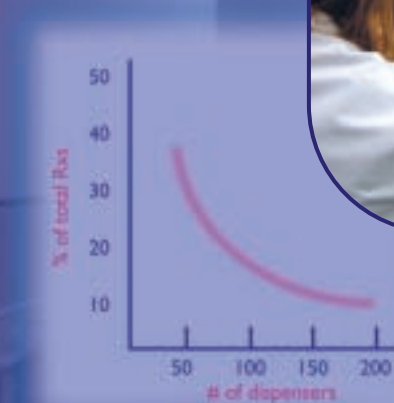

## Compelling Performance Analysis

Monitoring system utilization. Tracking performance metrics. Generating in-depth reports. PharmASSIST's information management tools enable you to continually analyze system and operator performance.

to fine tune your workflow, and to maximize your use of automated dispensing. Using PharmASSIST's comprehensive report library, you can produce reports on all levels from individual dispenser usage to optimum product utilization to system modeling for application at other stores.

The end result is powerful performance analysis that you can leverage to develop best practices and to increase profitability.

Armed with this all-important data, you gain valuable insight to make better system configuration/volume decisions.
